COMPOSITE DOORS

All SafeGuard doors offer high quality protection for your home, as well as beauty that's much more than skin deep. Their richly grained surface is extremely durable, with a look and feel of a traditional timber door - but requires only minimal maintenance.

There are two SafeGuard ranges to choose from, the Traditional Range and the Contemporary Range, offering over 37 different door styles. Nine colour options are available and when combined with over 80 decorative glass designs that's a range of over 25,000 options.

Ultra secure multipoint locking comes as standard with a choice of lever/lever or lever/pad operation. A variety of high quality hardware is available to complement and enhance your door, from chrome handles to security chains and eye hole viewers.

glass ranges. Our Brass & Zinc Art range offers triple glazed units constructed using hand-cut bevels and beautifully textured glass. The Etch Effect & Fusion Art range combines a simple etched glass effect with stunning

with handcrafted bevels to create 21st century designs. For a more traditional look the Resin Art range recreates established designs using a resin and hand painted colours to create a stylish individual look.

# solid doors

At the heart of our SafeGuard door range are four solid door styles, The Alnwick, Balmoral, Tintagel and Sherbourne are all classic designs manufactured and finished to the highest standards. These classic designs offer a level of security that is second to none with looks that any homeowner would be proud of.

# door colour combinations

White

Blue

All SafeGuard composite doors are manufactured using through coloured GRP (Glass Reinforced Plastic) skins which don't require any additional painting and are resistant to scratches and knocks. As standard all doors are coloured on the external face with a white finish internally. Golden Oak & Rosewood doors are also available coloured the same internally as externally.

Green

Steel Blue

Hazy Grey

NOTE: Due to product differences the PVCu foiled finish of the door outer frame is not an exact match in shading and texture to any of the GRP door skins. All the above colours are representative only. Please ask your installer for samples if required.

## furniture & hardware

A wide selection of door furniture and hardware is available including White, Black, Gold, Chrome and Satin Chrome handles with letter plates and numerals to match.

LEVER LEVER HANDLE

LEVER PAD HANDLE

SPY HOLE VIEWER

NUMBERS & LETTERS

URN KNOCKERS

LETTER PLATES

## safe & secure

All SafeGuard composite doors are fitted with a top quality multipoint locking system as standard and have been tested under stringent independent conditions against 'intruder attack'. The SafeGuard door has been certified to PAS23 and PAS24 standards. PAS24 is an enhanced security performance test that not all doors can achieve, so if you want to ensure your home has the highest level of security you should always ask for a SafeGuard door by name.

secured by design

## thresholds

There are three threshold options available on our SafeGuard doors, a low level aluminium threshold, a PVCu threshold and a stormguard aluminium threshold each offering a different user performance. Both aluminium thresholds meet the requirement of Part M of the building regulations and are suitable for wheelchair access. When using a low threshold ensure adequate clearance of existing floor covering (including mats) is allowed. See your installer for more details.

## low maintenance

An occasional wipe down with warm soapy water and a soft cloth is all a Safeguard door needs to keep it looking great .

## what makes our doors the best

1. Stable composite innerframe

## \* brass & zinc art range

Our range of Triple Glazed design options are constructed using hand-cut bevels and beautifully textured glass pieces, which are assembled using traditional stained glass methods into a Zinc or Brass came. The decorative glass is then encapsulated between two pieces of tempered safety glass to give excellent thermal and sound insulation with the added benefit of an easy to clean smooth surface. Flores, Kara, Scotia & Andaman available in both Zinc & Brass. Abstract, Elegance, Simplicity, Royale & Prairie available in Zinc only. Clarity available in Brass only.

- Stunning visual effect with multiple glass textures and bevels
- All units are triple glazed for easy cleaning and extra security
- It is however, not possible to create matching sidelights or toplights
- Changes to the glass types used or came (lead) colours are not possible

## ◆ etch effect & fusion art range

Our range of Etch Effect designs combine a simple etched glass effect with either traditional hand cut bevelled glass or truly stunning fused glass elements. These are bonded to the surface to provide a 3-dimensional effect that can not only be seen, but felt. These ranges use the finest materials and the most up-to-date techniques to produce designs that are simple, yet refract light beautifully, to create a focal point to your entranceway.

- Contemporary glass designs using fused glass elements
- Dual Glazed construction so you can touch the fused elements
- Colour changes available to match or complement the door colour
- It is however, not possible to create matching sidelights or toplights

## + overlay art range

Our range of Overlay designs incorporate genuine lead strips, handmade coloured effect films and handcrafted bevelled glass to create 21st century decorative glass. All the decorative elements are on the outer pane of tempered safety glass and you can choose from a wide range of texture glass options for the inner pane to give varying levels of privacy. Overlay Art designs are only available with Antique Leading.

- Dual Glazed construction
- Large range of Texture backing glasses available
- Where available colours can be changed to match the door

## \* resin art range

Our range of Resin Art designs are manufactured using state of the art resin dispensing equipment to create the outline, the colours are then hand painted. The Resins offer an alternative to lead profiles and create much finer lines.

- Fine lines and hand-painting allow for very intricate designs
- Large range of Texture backing glasses available

## ◆ fusion art options

Elba, Venetia, Murano & Fusion Ellipse are available with a choice of tile colours Red, Green, Blue & Black. Tile designs may vary see individual pages for tile designs.

Red/Yellow  
Green  
Blue  
Black

## + overlay art options

Crystal Bohemia, Crystal Inspirations, Crystal Harmony & Diamonds are all available with a choice of coloured borders or inserts.

BLUE

GREEN

GREY

## SafeGuard FD30 Fire Check Door

Our SafeGuard Composite door range now includes a range of certified half hour fire rated doors making it especially suitable for use on houses of multiple occupation and flats etc.

The selected range shown below outwardly resembles our standard range but combined with our specially designed outer frame and fire performance glass offers unsurpassed levels of safety and security.

- 30minute Fire Door conforms to BS476: Part 22:1987
- Fire retardant letterplates and viewers available
- Specially adapted outer frame
- Outwardly indistinguishable from other SafeGuard doors

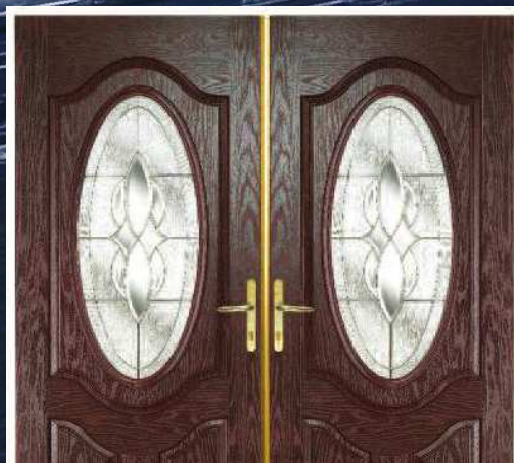

- For more information please contact our sales team
- Georgian Wired glass supplied as standard

## side panels

A choice of three side panels are available to complement the Balmoral, Caernarfon & Rochester door ranges.

As a general size guide a door and single side panel is available between 1350-1450mm wide. With a side panel either side of a door available between

double doors
